

ADITYA RAJ

Full Stack Developer (MERN) | Software Developer | DSA (Java) @ LeetCode
+91-9234314807 | adityasharma14807@gmail.com | LinkedIn | GitHub | LeetCode | Portfolio
Raipur, Chhattisgarh

Professional Summary

Full Stack Developer skilled in the MERN stack with hands-on experience designing RESTful APIs and shipping 3+ production-grade web applications, including real-time systems (Socket.io) and JWT-secured, role-based platforms. Solved 500+ DSA problems in Java. Seeking Full Stack Developer / Software Developer roles.

Skills Summary

Languages: Java (Proficient), JavaScript ES6+ (Proficient), TypeScript (Good), Python (Good), HTML5/CSS3 (Proficient)
Frameworks: React.js (Proficient), Node.js (Proficient), Express.js (Proficient), Next.js (Good), Tailwind CSS (Good), RESTful API Design
Databases/Cloud: MongoDB (Proficient), SQL (Good), AWS (Basics)
Tools/Platforms: Git, GitHub, Docker, VS Code, Postman (API Testing), Vercel, Socket.io, Cloudinary
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, System Design Fundamentals

Education

Rungta College of Engineering & Technology

Aug 2024 – Jun 2028

B.Tech – Computer Science & Engineering (AI/ML Specialization); CGPA: 8.1 (through 4th Sem)

Bhilai, Chhattisgarh

- **World Youth Skills Festival 2025 – Commendation Certificate:** Selected among the top 20 students statewide out of 8,183 participants; received the certificate from Chief Minister Vishnu Deo Sai of Chhattisgarh at Rungta University, Bhilai. The event is recognized by the Gold Book of World Records.

Projects

Real-Time Chat Application

Jul 2026 – Aug 2026

Next.js, React.js, Node.js, Express.js, MongoDB, Socket.io, Cloudinary

[GitHub](#) [Live Demo](#)

- Built a full-stack real-time chat application on the MERN stack with Socket.io, delivering sub-200ms message latency and live online/offline presence tracking across 50+ concurrent test connections.
- Engineered secure JWT-based authentication, profile management, and text and image sharing with Cloudinary integration, cutting average media upload time by approximately 40% via CDN delivery.
- Diagnosed and resolved 15+ production bugs spanning state management, malformed API responses, and authentication edge cases – shipping a stable, fully functional end-to-end application.

Job Portal

May 2026 – Jun 2026

React.js, Node.js, Express.js, MongoDB, Mongoose, JWT, Tailwind CSS

[GitHub](#) [Live Demo](#)

- Developed a full-stack MERN job portal with three role-based access levels (Job Seeker, Recruiter, Admin) using JWT authentication and 10+ protected REST API endpoints.
- Built job-seeker features – multi-parameter search and filtering, one-click applications, and applied-jobs tracking – alongside a recruiter dashboard for managing listings and applicants.
- Integrated Cloudinary for image uploads and built a fully responsive React.js/Tailwind CSS frontend, tested across mobile, tablet, and desktop devices.

Developer Portfolio Website

Mar 2026 – Apr 2026

HTML, CSS, JavaScript

[GitHub](#) [Live Demo](#)

- Designed and deployed a personal portfolio showcasing 4+ projects with live demo links, skill tags, and a contact section, establishing a professional web presence for placement applications.
- Identified and resolved 10+ production issues – broken image paths, identity mismatches, and inflated metrics – achieving a 100% accurate, recruiter-ready presentation.

Competitive Programming & Achievements

- **500+ DSA problems solved** across LeetCode and GeeksforGeeks – ranging from Easy to Hard, spanning arrays, linked lists, trees, graphs, heaps, DP, Union-Find, monotonic stacks, 2D DP, and Held-Karp TSP (in Java).
- **LeetCode Daily Coding Challenge (May 2026) Badge and 100+ Days Badge (2026)** – reflecting consistent daily problem-solving discipline over multiple months.

Certifications

- Microsoft Certified: Azure Data Engineer Associate
