Professional Summary

B.Tech CSE (AI/ML) student with strong problem-solving skills, demonstrated by solving **430+ DSA problems** across LeetCode and GeeksforGeeks. Hands-on experience building full-stack MERN applications using React.js, Node.js, Express.js, and MongoDB. **Microsoft Certified: Azure Data Engineer Associate**, passionate about backend engineering, scalable web applications, and AI-powered solutions. Seeking a Software Development Internship to contribute strong programming and software development skills while continuing to learn and grow.

Technical Skills

Languages: Java, JavaScript (ES6+), Python, HTML5, CSS3
Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Tailwind CSS
Databases & Cloud: MongoDB, SQL, Microsoft Azure (Data Engineer Associate)
Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel, LeetCode, GeeksforGeeks
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Projects

Citizen Care Portal – Government + AI Web Portal *React.js, Node.js, MongoDB, REST APIs, Vercel*
citizen-care-portal-one.vercel.app 2025

- Developed a full-stack Government-AI citizen services portal integrating AI-powered query resolution with government service workflows, enabling citizens to access public services through a unified digital interface.
- Architected with React.js frontend, Node.js, Express.js backend, and MongoDB database, deployed on Vercel with responsive design and seamless REST API communication.
- Implemented AI-assisted citizen support features that automate common government service queries, reducing manual resolution effort and improving citizen experience.

Developer Portfolio Website *HTML, CSS, JavaScript*
dynamicportfolio-ten.vercel.app 2025

- Designed and deployed a personal portfolio showcasing 4+ projects with live demo links, skill tags, and contact section, establishing a professional web presence for placement applications.
- Resolved production bugs including broken image paths, identity mismatches, and inflated metrics, ensuring a 100% accurate and recruiter-ready presentation.

Competitive Programming & Achievements

- Solved **300+ problems on LeetCode** (adityaraj03252) spanning arrays, linked lists, trees, graphs, heaps, DP, and binary search in Java.
- Completed **430+ total DSA problems** across LeetCode and GeeksforGeeks, covering Easy to Hard patterns including Union-Find, monotonic stacks, 2D DP, and Held-Karp TSP.
- Earned **LeetCode DCC May 2026 Badge** and **50 Days Badge 2026**, reflecting consistent daily problem-solving discipline over multiple months.
- Holds **Microsoft Certified: Azure Data Engineer Associate** and completed **Microsoft AI Skills Fest Challenge**, validating cloud data pipeline and AI integration competencies.

Education

Rungta College of Engineering & Technology, Bhilai, Chhattisgarh *Aug 2024 – Jun 2028*
Bachelor of Technology – Computer Science & Engineering (AI/ML Specialization) **CGPA: 7.95** (till 3rd Sem)

Certifications & Honours:

- World Youth Skills Festival 2025 – Commendation Certificate** | Honored by Chief Minister Vishnu Deo Sai of Chhattisgarh at Rungta University, Bhilai. Selected among **top 20 students** statewide out of 8,183 participants. Event recognized by the Gold Book of World Records.
- Microsoft Certified: Azure Data Engineer Associate
- Microsoft AI Skills Fest Challenge | Rungta Semester Training – Summer 2025
